

Decontamination Unit ISTECS Type DECO

The solid foundation for safety! ISTECS® industrial decontamination platform featuring anti-slip grating, heavy-duty stainless steel, and integrated drainage.

Standards

EAC/GOST-R

EAC

TECHNICAL DETAILS

- **Advanced Anti-Slip Grating:** Features a specialized serrated grating structure to maintain personnel balance even under heavy water flow and chemical exposure, effectively preventing secondary slip-and-fall accidents.
- **AISI 304 / 316 Stainless Steel Build:** The entire frame and grating are manufactured from premium stainless steel, providing lifetime resistance against aggressive industrial chemicals and constant moisture.
- **Integrated Drainage Management:** The built-in sump base and discharge outlet prevent contaminated water from spreading across the facility floor, channeling waste directly into the drainage system.
- **Exceptional Load Bearing:** Reinforced to support the full weight of personnel equipped with heavy Hazmat suits and breathing apparatus without any structural deflection.
- **Modular Integration:** Designed for perfect compatibility with all ISTECS® industrial decontamination booths and units, ensuring a seamless and rapid installation process.
