

DPI SEKUR AIRLINE AP/A

Article Number: 03071034

Complies with the EN 14593-1 standard. Designed for use with positive pressure masks.

Components:

- E 400 AP/A automatic positive pressure demand valve
- Synthetic material belt
- Medium-pressure hose

Features:

- The E 400 AP/A demand valve automatically activates positive pressure upon connection.
- Featuring a fluid dynamic design, the E 400 AP/A demand valve delivers a higher flow rate (exceeding 400 L/min under positive pressure).
- The supply pressure for breathable air (EN 12021 compliant) must be between 5 and 8 bar.
